

Open Mobile 1.0.0 for Windows Touch Release Notes

VERSION 1.0, OCTOBER 2012

These release notes contain the latest news and information about Open Mobile 1.0.0 for Windows Touch, including new features and resolved issues.

New Features

The Open Mobile 1.0.0 release includes the following new features:

- **Windows 8 Support**
 - Optimized to work with the new Windows 8 interface.
- **New User Interface**
 - Optimized for the touch screen.
- **Available in the Windows Store**
 - Distribution through the Windows Store
 - Available to download on any Windows 8 device with Internet access.
- **Secure Activation**
 - Users need an Activation Code (their Profile ID) and (if implemented) a PIN to fully activate.
 - An Open Mobile client that has not been activated cannot be used to connect to iPass hotspots but still has access to the Hotspot Finder and the Speed Test.
- **Hotspot Finder**
 - Locate hundreds of thousands of iPass hotspots anywhere in the world.
- **Speed Test**
 - Users can test the connection quality.
- **Take a Tour**
 - Interactive tour explaining the iPass service.
- **Help**
 - Comprehensive list of frequently asked questions (FAQ) available in the app.
- **iPass Preferred**
 - Ability to display the top 250 iPass hotspots as *iPass Preferred* in the native Windows network list.

System Requirements

Open Mobile 1.0.0 has the following system requirements:

- Wi-Fi capable Windows 8 device
- Users need an iPass account in order for the service to function. In addition, the user must be connected to the Internet, have an Activation Code, and (if necessary) a PIN to activate Open Mobile.

Supported Languages

- Open Mobile 1.0.0 for Windows Touch is supported in English.

Resolved Issues

As this is the initial release, there are no resolved issues.

Known Limitations

This release of Open Mobile includes the following known limitation:

Issue ID	Description
118588	Due to a limitation in the Windows 8 hotspot registration, iPass Preferred networks may occasionally fail to connect. If this happens the user can restart the device or turn off the iPass Preferred feature by navigating to Settings > Advanced Settings > Show top 250 networks with original name .

Known Issues

This release of Open Mobile includes the following known issue:

Issue ID	Description
N/A	Not all iPass hotspots are available for connection using this release of Open Mobile, including Inflight and OpenAccess hotspots.
